

REMARKS

Claims 1-43 are pending in the application. The Office Action sets forth a restriction requirement between the following defined inventions:

- I. Claims 1-5 and 27-29, corresponding to a reflective-type full color LCD with a simple matrix driving method as shown in Figure 2;
- II. Claims 6-14 and 30-36, corresponding to a reflective-type full color LCD with a font storage section and data judging circuit connecting to the image processor as shown in Figure 13; and
- III. Claims 15-26 and 37-43, corresponding to three color filters having the same pixel structure as shown in Figure 23.

Applicants elect Group I, which is drawn to a reflective-type full color LCD with a simple matrix driving method.

This election is made without traverse.

Applicants respectfully assert that claims 1-3 and 27-29 are generic claims that cover the embodiments of Figures 2, 13, and 23, and thus cover Group I, II, and III. Therefore, allowance of claim 1 should result in the allowance of claims 6-14 (Group II) and claims 15-26 (Group III). That claim 1 should be a generic claim with respect to claims 6-14 and claims 15-26 appears required due to the dependence of claims 6-14 and 15-26 upon claim 1.

If an extension of time is required to enable this document to be timely filed and there is no separate Petition for Extension of Time filed herewith, this document is to be construed as also constituting a Petition for Extension of Time Under 37 C.F.R. § 1.136(a) for a period of time sufficient to enable this document to be timely filed.

Any other fee required for such Petition for Extension of Time and any other fee required by this document pursuant to 37 C.F.R. §§ 1.16 and 1.17, other than the issue fee, and not submitted herewith should be charged to Sidley & Austin Deposit Account No. 18-1260. Any refund should be credited to the same account.
